

Insulation Parts?

**You design
them...
Auburn will
fabricate
them!**

Every:

- **Material**
- **Size**
- **Shape**
- **Configuration**

You specify the part . . . you specify the material . . . Using precision equipment for shearing, punching, cutting, machining and forming we will fabricate your insulation parts from our varied stock of materials, such as . . . **ABS, Celcon[®], Delrin[®], Duroid[®], Fibre, Fishpaper, Formex[®], Kapton[®], Kraftpaper, Kydex[®], Lexan[®], Nomex[®], Nylon, PVC, Phenolics, Polyester, Polyethylene, Polypropylene, Ragpaper, Statex[®], Teflon[®], UHMW, Valox[®], Vegetable Fibre (Algco[®])** and more.

Take advantage of Auburn's many capabilities in the early design stages of your project. Our recommendations for material and design alternatives can save you valuable time and money. We offer a broad line of materials for fabrication and unlimited configurations that will fit any requirement.

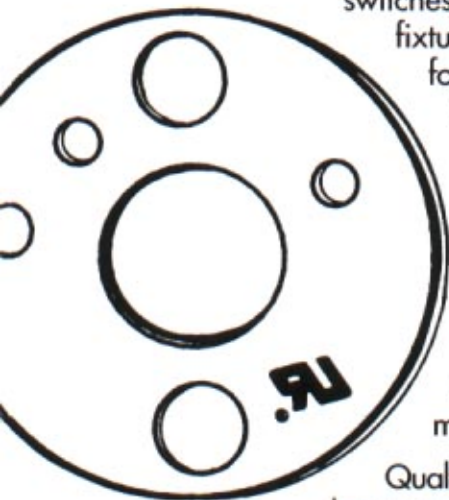

For prompt quotations on your next project send or FAX specs or prints. We will furnish samples and provide recommendations for your initial prototypes.

Manufactured for applications involving switches, timers, lighting fixtures, motors, transformers, electronic instruments, control components, fuse assemblies and more.

We employ dozens of popular non-metallic insulating materials including fiberboards, copolymers, plastics, papers, films; UL & CSA certifiable formulations and special moisture resistant products for every design requirement that may be encountered.

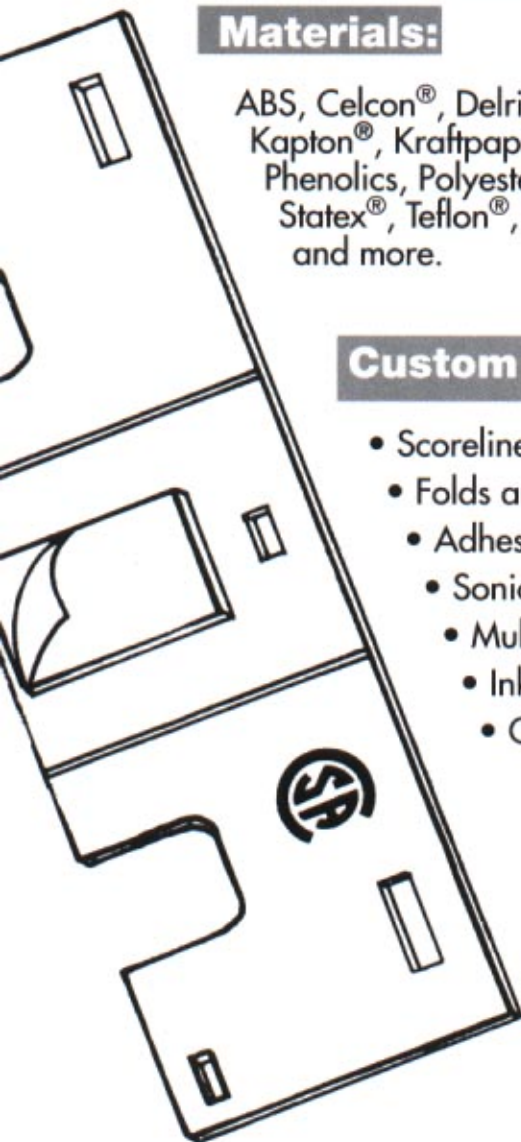

Quality, price and on time delivery are reasons enough to select Auburn, but we are particularly well known for the development of prototypes and short run quantities, often within days, to meet your most pressing needs.

Materials:

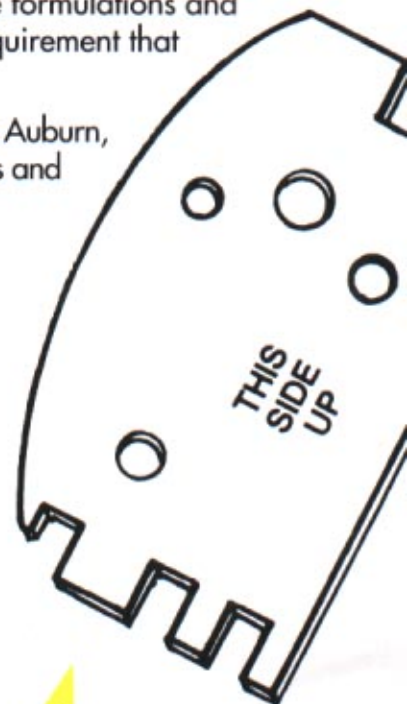

ABS, Celcon[®], Delrin[®], Duroid[®], Fibre, Fishpaper, Formex[®], Kapton[®], Kraftpaper, Kydex[®], Lexan[®], Nomex[®], Nylon, PVC, Phenolics, Polyester, Polyethylene, Polypropylene, Ragpaper, Statex[®], Teflon[®], UHMW, Valox[®], Vegetable Fibre (Algco[®]) and more.

Custom Design Capabilities:

- Scorelines
- Folds and Bends
- Adhesive Backings with Wide Material Selection
- Sonic Welds, Box Shapes, 2 Part Welding
- Multilayered Constructions
- Ink Stamping, Silkscreening, Embossing
- Counterbores, Countersinks and Threaded Holes
