Metal Products

Gaskets, Shims,
Washers,
Stampings,
Spacers
and More.

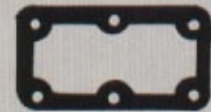

All Shapes • All Sizes • All Materials

Prototypes, Short Runs or Production

Auburn Manufacturing offers a complete line of metal products including gaskets, shims, washers, stampings, spacers and more. All of these products can be manufactured to your critical specifications. We also provide secondary operations such as plating and oxidizing. We welcome Prototype and short run orders and we will work with you to inventory standard products for production or short runs.
