No. 226X36Q: Quattro-Seals™

Quattro-Seals are designed to have four sealing surfaces as opposed to only two for the corresponding size O-Ring. This

doubling of the sealing surface reduces the amount of squeeze required to effect a good seal. As squeeze is reduced, friction is lowered, thus increasing sealing life. Kit No. 226X36Q contains a total of 226 of the following 36 sizes of Quattro Seals: 005 thru 012 (10 ea.) 013 thru 016 (6 ea.) 017 & 018 (5 ea.) 110 thru 116 (6 ea.) 117 thru 121 (4 ea.) 210 thru 219 (5 ea.) Contents Identification Card included. Quattro-Seals are molded from high quality 70 durometer nitrile and are packed in our compact 36 compartment box. **Quattro-Seal Kit \$36.95 each.**
